

Welcome to Volume 13 of the LINEV Systems UK Newsletter – our third edition of 2025.

This year is shaping up to be an exciting one for LINEV Systems UK so we're delighted to share updates on our new Sales Director, key industry events, new installations across Europe, and more.

As always, if you have any questions about the content or would like more information about any of our products or services, feel free to get in touch, you'll find our contact details on the final page. If you're on LinkedIn, don't forget to follow our page for more regular updates!

NEW SALES DIRECTOR

We're delighted to announce that **Eve O'Hare** joined us recently as Sales Director - Security Solutions. Eve has over 20 years of experience in the industry, with a proven track record of delivering results in the security and technology sectors & we are excited to have her as part of the team.

"I am delighted to join LINEV Systems UK and become part of a company known for its innovation and excellence. I look forward to working with such a passionate team and contributing to the exciting journey ahead."

Eve will be on our stand at ISE next month, please see below for more details.

ISE 2025

On 30th September & 1st October the team will be back exhibiting at ISE (International Security Expo) 2025 at Olympia London. Join us on stand C90 for another chance to see the LV Stream High Footfall Bag Scanner in action & discuss all of our latest innovations in security screening, including the Multi-Energy vehicle scanner which combines both high & low energy scans into one detailed image.

Want to arrange a meeting?

Email us on ukinfo@linevsystems.com

We look forward to meeting you there.

NEW INSTALLATIONS ACROSS EUROPE

We're delighted to share a glimpse of just a few of the recent successes we have delivered since our last newsletter:

- Advanced Bag Scanners for a high profile building in London to assist in their screening process
- Innovative 'Batteray' battery sorting systems across Europe to support sustainable battery recycling
- State-of-the-art Body Scanners for European Customs to enhance border security

Alongside these installation projects, our engineering team has been hard at work on numerous customer sites globally, delivering world-class service and support to ensure our systems continue to perform at the highest level.

ICBR 2025

icbr

This September, we're also heading to Valencia to exhibit at the International Congress for Battery Recycling (ICBR). Marking its 30th anniversary, the event will spotlight the future of lithium battery recycling.

Our team will be showcasing "Batteray", our advanced Xray battery sorting scanner, alongside 'X-sort', our latest waste scanning solution.

We already have a busy schedule of meetings, but if you're attending, we'd love to connect — reach out to arrange a time with us.

NEW LV STREAM HIGH FOOTFALL SCANNER – SEE IT IN ACTION

The cutting edge LV Stream bag scanner is here:

- Dual view technology with advanced AI powered detection & automation
- Scan up to 1400 bags per hour to minimise queuing
- Several times faster than conventional bag scanners
- Trialled & tested at the O2 in London who we have worked closely with over the past few months
- Now at another prestigious visitor attraction in London.

To see the system in action for yourself please contact us for a demo as we would be delighted to show you how it could enhance your security screening process.
